

Double Torches Gas Cutting Machine

Model : CG-302

Feature : The CG-302 gas cutting machine are able to cut two straight line at one time, grove 'V', grove 'Y', circle 'O' with rail & circle attachment, it usually be used in shipbuilding; oil & gas; boiler, & all kind of

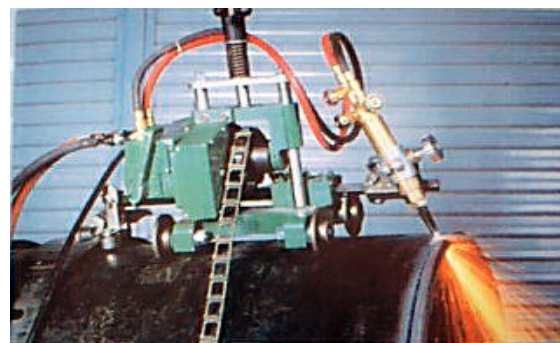

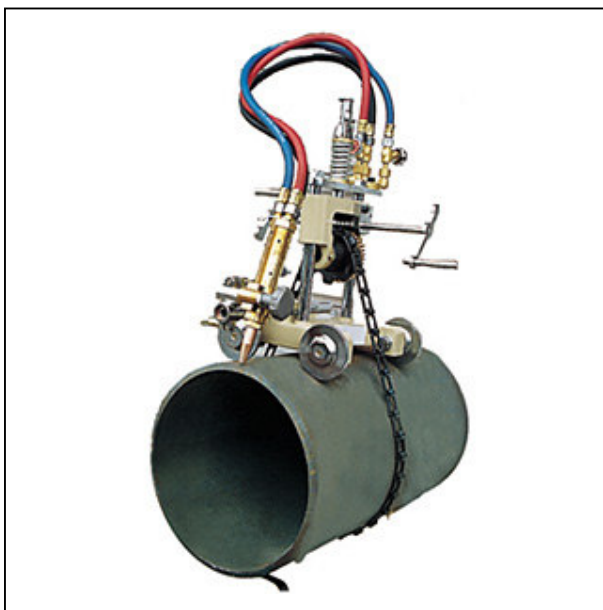

Technical data :

1. CUTTING SPEED : 0 ~ 750MM/MIN
2. CUTTING STEEL THICKNESS : 5 ~ 100MM
3. CUTTING CIRCLE DIA. : Ø 200 ~ 2000MM
4. INPUT POWER : 220~240V/50HZ

Manual Pipe Cutting Carriage

Model : CG2-110

The machine belongs to manual type gas cutting of the pipe. It adopts the chain to the pipe tightly, then operate handle manually. The machine will turn around the pipe. Operation simple, rotate stable, it usually use in field cutting operation.

TECHNICAL DATA :

1. CUTTING STEEL THICKNESS : 5 ~ 100MM
2. MIN CUTTING PIPE DIA. : > Ø 100MM
3. WHEELS : WITH MAGNETIC
