

Fume Extractor

Main Features

- ✓ Flexible Arm; enable to extend / retract and 360 degree swing.
- ✓ With hygienically pack filter.
- ✓ Low maintenance cost.
- ✓ Compact design; wall mounted
- ✓ Fume circulation design to prevent indoor cool air exhaust to out door.
- ✓ Low power energy saving.
- ✓ Low noise design.

Fume Extractor LB-1200W is special design for extract the fume and dust directly at source. The polluted air is filtered and captured in an filter. The unit is equipped with a flexible suction hose and connect with a suction nozzle. Easy wall mount bracket, Flexible arm easy to move to welding work site.

Technical Specifications

Model		LB-1200W	LB-1500W
Maximum Airflow	(M3/h)	1,200	1,500
Motor Power	Kw	0.75	1.5
Input supply voltage	V/Ph/Hz	230/1/50	415/3/50
Maximum filter area	M2	15	12
Filteration efficiency	%	99.7	
Noise level	db	60	60
Filter design		Hygienically with auto reverse purging	
Arm Length	mm	2,200	
Weight	Kg	39	42
