

ARC LENGTH CONTROLLER AVC

**Feature :**

- 1) Signal output according the change of the sharp by the work piece during welding , the constant arc length to ensure good quality welding result.
- 2) For use in TIG, Plasma, type of welding process.
- 3) More suitable for use in Pulse TIG.
- 4) Easy for Attach with Automation equipment

Specification:

Model	HA3-2
Type	Analog
High setting	Input Arc voltage
Off setting	AVC \pm1-10% of max. setting range
Input signal	DC,-V
Pulse welding	Yes
Auto / man.	Yes
Remote control	No
Dewell	No
Slide Stroke	200mm
Speed	250mm/min
Application	TIG, PLASMA
Power input	1Φ, AC 24V, 50Hz, 2A
