

Mini SAW Welding Head

MZT-4 Mini SAW welding head is ideal solution for welding of small diameter round object inner longitudinal or circumferential welding with submerge arc process.

The unit with consist of Wire feed head; motorize cross slide; pneumatic control flux valve, can be easy mounted to Column and Boom and coupler to many type of DC power source to compose of a complete welding system.

Model	MZT-4
Wire dia.	2 ~ 5 mm
Wire feed speed	0.4 ~ 3.5 m / min
Supply voltage	AC 110 V
Min. work piece diameter	400 mm
Flux valve control	Pneumatic
Cross slide stroke	50 x 50mm
